SPECIAL DEMONSTRATION

ON MAJESTIC RANGES

February 28 to March 5th

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old wornout cook

You KNOW that old stove eats up a lot of fuel each year.

You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a whileyou know it costs considerable for yearly repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation.

SATISFACTION is a great thing, any Majestic user will tell you they would not have anything but a Majestic. Wherever we sell a Majestic we make a customer, hence there is a two-fold SATISFACTION.

The Great Majestic

with the patent copper tank or reservoir. This reservoir holds 12 gallons of water. The water is always hot. Very handy for country homes. It is as easy to lift off and on as an empty wash boiler. The water will heat while the breakfast is cooking. This reservoir is worth half the price of the range and is surely something greatly needed by the farmer's wife. This range can also be furnished without the reservoir and you can buy the reservoir later if needed.

This \$10 Set of Ware, or a Fine Set of Aluminum Ware

FREE

As a special judacement during our Demonstration Week only, we will give with every Majestic sold, one handsome set of kitchen ware, as llustrated, or a fine set of Aluminum ware.

Every piece is the finest of its kind and the entire set cannot be purhased for less than \$10.00. The price of the Majestic remains the same and the quality of the stove is the same. This kitchen ware is, an out

This Majestic is made in many different styles, Cabinet style, on legs, with or without reservoir and are also made in the COMBINATION GAS AND COAL RANGE. This range has a separate gas baker which is entirely independent from the coal baker, and is the ONLY ABSOLUTELY SATISFACTORY WAY FOR A COMBINATION RANGE. It has been proven times without number that one baker cannot be built so that it will bake perfectly with gas or coal. A gas baker MUST HAVE AIR and a coal baker MUST BE TIGHT. Therefore we advise that whatever kind you buy do not be fooled on this POINT.

Made in Coal or Combination

Coal and Gas

Your wife cooks a thousand meals a year. Your range is used more than all your other furniture combined. Then why not buy the best—the Majestic? THE GREAT MAJESTIC, THE RANGE WITH A REPUTATION WON.

GOLD MEDAL—the highest award at the Panama Pacific International Exposition at San Francisco, St. Louis, Portland, Seattle, Jamestown, Knoxville and Omaha.

For nearly a quarter of a century, ever since MAJESTIC RANGES have been on the market it has swept from all competitors the highest prizes offered at WORLD'S FAIRS, and similar Expositions. There has not been a single break or exception. This betokens an article of extraordinary and unquestionable merit. It is admitted to mean much when such a prize is won even once, but when the winning is repeated year after year, and when the Judges are chosen from the most prominent men in their lines, from the four quarters of the globe, we are justified in our contention that we have the best Range on earth.

Here Are Some MAJESTIC Users in this Vicinity—Ask Them About the GREAT MAJESTICS.

Men's Clothing

Throughout the year there's nothing quite as necessary as a smart new suit for Easter. A suit tailored to your individual measure-not one made to "answer the purpose." Now is the time to select the very fabric you want from among hundreds of samples; to have that particular fabric modeled after any one of the latest styles of your choice, and to receive the suit, made to fit YOU, at any particular date desired.

At our nearest store you can see the great Ed. V. Price & Co. complete Spring Line —than which more value, more style, and better workmanship cannot be crowded into one suit of clothes.

If you stepped into a New Series 5-passenger Paige Glenbrook without knowing its make or price and experienced its power, speed and general excellence in actual performance, we would be willing to make this prophecy:

After a single demonstration of its capabilities you would price the Glenbrook at five hundred dollars more than it costs.

That is because there are no existing standards by which the New Series Glenbrook can be compared. It has established its own standards.

There is only one way to prove such strong statements—to ride in the car.
